Dear Customer,

In response to your inquiry, following is all PTC subsidiaries and managed LLCs including Enduro Industries, Metal-Matic LLC, and PTC Liberty Tubulars LLC statement on “recycle content” of its steel tubing and bar products.

PTC Alliance produces steel tubing and chrome-plated steel tubing and bar, from BOF and EAF steel. Information published by the Bureau of International Recycling in their report for 2023 indicates that products manufactured with BOF steel average 31.7% recycled content value, and products manufactured from EAF steel average 68.3% recycled content value.

A handwritten signature in blue ink, appearing to read "Jeff McNeely", with a long horizontal stroke extending to the right.
