Dear Customer,

In response to your inquiry, the following is PTC's statement on product compliance with the European Union's RoHS, WEEE, and ELV regulations. This statement applies to products from any PTC subsidiary LLC., including Metal-Matic, LLC., and Enduro Industries, LLC.

Our steel-based products do not contain any of the 10 listed substances at or above the maximum allowable limits given in the Restriction of Hazardous Substances (RoHS recast) directive 2011/65/EU as amended by 2015/863/EU. This statement is based on information from our suppliers, backed by periodic outside laboratory analysis of products for restricted inorganic substances.

There should be no restriction on the recycling of any electrical or electronic equipment due to any contained PTCA products under the terms of Directive 2012/19/EC "Waste from Electrical and Electronic Equipment (recast)."

There should also be no restriction on the recycling of any vehicle components due to any contained PTCA products under the requirements and definitions of Directive 2000/53/EC on "End of Life Vehicles."

A handwritten signature in blue ink, appearing to read "Jeff McNeely", with a long horizontal stroke extending to the right.
